

May 14, 2020

To Our Pet Owners,

It has been a very rewarding and productive 4 years. We have met so many great pet parents and have enjoyed every one of the awesome dogs and cats that had the advantage of our low-cost spay and neuter program. It is not over but we have reached a benchmark here at Fix Them All – Funding!

We are working many hours to research grants that we may qualify for and during this time and until we receive a grant to replenish our spay and neuter fund, regretfully, we have no alternative but to place our program on hold.

All paid applications received through yesterday, May 13<sup>th</sup>, will be honored. A surgery certificate for the clinic that you have selected was forwarded to the clinic.

Please be sure to call the clinic and request an appointment. Our surgery certificates are time sensitive and do have an expiration date!

Our Neuter Commuter Wagmore Grant is still active. We will be posting our registration dates and surgery dates soon.

In the meantime, please do everything possible to protect your female pets from pregnancy! We are doing everything possible to expedite our request for grants and expect that you will be hearing from us very soon!

Sincerely,

The Fix Them All Staff
